Date of birth: 26. 7. 1999

About me: Proactive and responsible software engineer. I always face work calmly and focus on the quality of the results while continuously developing both technical and soft skills. I am a strong team player who can also work independently if required. Always open to new challenges.

WORK EXPERIENCE

Software Engineer, NESS KE, s.r.o. - Košice, Slovak Republic

September 2021 - May 2025

- Feature development and maintenance of a product built on the ThingsBoard platform (Java, JavaScript, occasionally HTML and CSS)
- Development and improvement of microservices (.NET6) running on AWS Cloud (Lambda, ECS), managing logs (CW Logs, Alerts), integration JIRA services via API, etc...
- Production deployments and integration of third-party applications and services
- DevOps-related tasks using Bash scripting and AWS CF, and others
- Presenting the product and new features to client companies and stakeholders, as well as presentations at internal company events.
- Creating clear and structured documentation for both end users and technical teams to support the development process
- Technical support
- Keep code clear, readable, tested, with comments fulfilled

Junior Software Engineer, Allysoft, s.r.o. - Košice, Slovak Republic

January 2020 - July 2021

- Creating and updating the functionality of Android applications running on the Cordova framework
- Integration of external modules for communication with various hardware components (NFC, Camera, Fingerprint Scanner, etc.)
- Working on the frontend of internal applications (HTML, CSS, JS, JQuery)
- Creating user manuals.

INTERESTS OR HOBBIES

I enjoy staying physically active through sports, such as basketball or running.

I also spend my free time maintaining my old Swedish car.

As hobby I can also define working on and improving my own applications.

DRIVING LICENSE

A, B

ADDITIONAL INFORMATION

I am enthusiastic about learning new things and constantly improving myself. I am not afraid of difficult tasks and ready for honest work.

As a team member for a long time I believe that build strong connections in team can help not just get work to be done fast and efficiently, but also create good and friendly work environment.

In my possession are a few IT certifications, really helpful to progress in my IT career, including: Cisco certification (CCNA2), AWS Cloud Practitioner, Unit Testing (by Nobble Prog), TypeScript Advanced (by ICT Pro) and numerous trainings related to Data Security.

In addition, I am currently developing several JavaScript-based (React Native, React JS) projects to expand my portfolio and learn new things, which I will be happy to share upon request.

For CV in Slovak language, you may reach me. Also you may reach my previous employers to confirm my experience and get feedback.
